Dear both,

A hurried note to let you know that you apparently satisfied the London Times. Spoke to Luis Heren today. He and his assistant Wigg are fine people.

He phoned me a week ago Sunday. I recommended you on the mysterious deaths. Today he thanked me, so I presume from this his paper was satisfied. Sorry I couldn't help when LA called, not because I was then broadcasting on the other phone, but because I didn't have that data at my fingertips, never having been interested in it. I guess I moused up the Chinese proverb. Hope you got well paid. Lil wrote the message out while I was broadcasting, so I got it.

Did you know that AP put a mandatory "kill" on the Harold Russell part of their last-week's story on 15?

Have you run accross the trail of Aracache Smith in anything interesting lately? One thing I'd like to know if you have anything on it: that October (I believe 17) meeting that Walker attended, supposedly a DRE meeting, the one that Oswald was alleged to have attended. I'd particularly like to know who spoke and what was said.

Odd that Walker should attend that one only, isn't it?

Tom today said he thinks he'll be here another month. Saw him briefly. He thinks Schiller and Epstein have an alliance, and from what he said he seems right.

Checked at the Archives today and was finally told that your copy of the file list has been mailed. If you do not get it, let me know.

Your friend George Doyle, KFH, is in the hospital. Got turned over Friday a.m. Injury to back but he is okay. His wife seems nice and the fellow who took his place, Mike McGee, was very good.

I've got Lil busy typing, so I say hello for her, too.

Yours,
