## **Monthly Harvard-Harris Poll: February 2019**

This survey was conducted online within the United States from February 19-20, 2019 among 1,792 registered voters by The Harris Poll.

The results reflect a nationally representative sample. Results were weighted for age within gender, region, race/ethnicity, marital status, household size, income, employment, political party, political ideology, and education where necessary to align them with their actual proportions in the population. Propensity score weighting was also used to adjust for respondents' propensity to be online.

NATLEM0206 In the last two years 300,000 to over 400,000 people were intercepted trying to cross illegally into United States on the southern border with Mexico. Only a few thousand try to cross the northern border with Canada. Given these numbers, do you favor or oppose the decision by the President to declare a national emergency to secure the funding he needs to build a wall on the border with Mexico?

ECONOMIC\_LADDER In the following exercise, please indicate the economic well-being in each of the following cases.  
 Use the scale on the left where 10 represents 'very rich' and 1 represents 'very poor.' First, click on the point that indicates where your family was when you were a teenager.  
 Now, please compare your family's situation when you were a teenager to your current level of economic well-being. COMPROMISE Next, we have a question about the best approach for political leaders to follow in Washington. Where would you rate yourself on a scale of 1 to 5, where 1 means it is more important for political leaders to compromise in order to get things done, and 5 means it is more important for political leaders to stick to their beliefs even if little gets done?  
 You may use any number from 1 to 5.
