

Nālandā
UNIVERSITY

An Avant-Garde International University under the aegis of Ministry of External Affairs, GoI.

(Established by an Act of Parliament of India)

School of Ecology and Environment Studies

The School of Ecology and Environment Studies (SEES) is one of the first schools at the Nalanda University, which commenced its academic programme in August 2014. The School traverses a broad range of academic pursuits across natural sciences and social sciences, to promote education and research on the interactions between the natural environment and human activities. Rooted in the tradition of the ancient Nalanda University, the School aspires to generate critical understanding that will benefit the globe. The School also seeks to bridge the current gap in the study of environmental issues between the Western and the Eastern perspectives. It addresses pressing local, regional and global environmental problems of our times through education, research, collaborations, and policy recommendations.

ADMISSION ANNOUNCEMENT: 2024 - 26 MSc (ECOLOGY AND ENVIRONMENT STUDIES)
