There was no independent third-party verification of the data and claims listed in the table above.

Information Regarding Carbon Neutrality Claims (pursuant to AB 1305 Section 44475.2)

Eventbrite achieved carbon neutrality for our 2021 and 2022 Scope 1 and Scope 2 greenhouse gas (GHG) emissions through carbon removal credits, carbon avoidance credits, and energy attribute certificates (EACs). In this regard, we worked with Watershed to estimate our Scope 1 and Scope 2 GHG emissions by following guidelines from the GHG Protocol Corporate Accounting and Reporting Standard and the Corporate Value Chain (Scope 3) Accounting and Reporting Standard.

We then worked with Watershed to design a portfolio of carbon removal, carbon avoidance, and EAC projects to offset our Scope 1 and Scope 2 GHG emissions for 2021 and 2022.

We did not attain independent third-party verification of our GHG emissions, and we have not set carbon reduction targets, including science-based targets.
