EXPLANATORY NOTES

Introduction

This publication is one of the Bulletin 2 series presenting data from the 1981 Census of Population and Housing on characteristics of persons and dwellings in the States, Territories and Australia. Persons were counted where they spent the night of 30 June 1981. More detailed cross-classified tables will be available in the Bulletin 3 series.

Content

2. There are 39 tables in each State and Territory publication. The publication for Australia contains 3 additional tables to give an Australia-wide picture of place of usual residence and internal migration.

3. The first table is a summary of important statistics from the 1981 Census and the next five tables provide more detailed comparisons with several earlier censuses. The remaining tables provide a comparison with the 1976 Census results where possible.

4. Some tables are footnoted for clarity, but further details on individual topics and classifications can be obtained from the relevant information papers. (See 'Related publications'.)

Scope and coverage

5. The 1981 Census of Population and Housing aimed at counting every person who spent census night, 30 June 1981, in Australia, including persons on vessels in or between Australian ports, on board long-distance trains, buses or aircraft. All dwellings were counted, whether occupied or unoccupied. People were counted where they were on census night, which may not be where they usually lived. Visitors to Australia were enumerated regardless of how long ago they had arrived or how long they planned to stay. Australian residents out of the country on census night were excluded from the count.

6. Diplomatic personnel and their families are, by definition, out of the scope of the census, as are diplomatic residences.

7. While every effort is made to minimise undercounting in the census, some inevitably remains for various reasons (e.g. inadvertent omission of very young children, treatment of some dwellings as unoccupied when, in fact, they were occupied, and failure to find all dwellings). Refusal by householders to complete the census schedule is not a significant cause of undercounting.

Definitions

8. *Dwellings*—for census purposes, dwellings are classified into two groups: occupied and unoccupied. Occupied dwellings can be either private or non-private while unoccupied are private only.

(a) An occupied private dwelling is defined as the premises occupied by a household on census night (for a definition of *Household* see below). A *private dwelling* is normally a house, flat, part of a house or even a room but can also be a tent, houseboat, or caravan if standing on its own block of land and not occupied by members of the same household resident in an adjacent dwelling. It is important to remember that the census definition of a private dwelling means that the total number of dwellings may be more than the total number of known structures in any given area (see *Household* below). *Non-private dwellings* are hotels, motels, boarding houses, gaols, religious and charitable institutions, defence establishments, other communal dwellings and caravan parks; such dwellings unoccupied on census night are not counted. Usually occupants of such dwellings use communal facilities (such as hotel dining rooms or mess halls) attached to the particular establishment. A caravan in a caravan park (whether permanently or temporarily located) is treated as part of a non-private dwelling as are self-contained units provided by commercial enterprises such as hotels, motels and guest-houses.

(b) An unoccupied dwelling is a structure built specifically for living purposes and capable of being lived in but unoccupied at the time of the census. Vacant houses, holiday houses, huts, cabins (other than seasonal workers' quarters) and houseboats are counted as unoccupied dwellings but vacant tents, garages and caravans (if not normally occupied) are not. Also included are newly completed dwellings not yet occupied; dwellings which are vacant because they are due for demolition or repair; dwellings to let; and dwellings where all members of the household were absent on census night.

9. *Household*—For census purposes, a household is either a person living alone or a group of people living together as a single domestic unit with common eating arrangements. It is possible for more than one household to live in one house or structure. For example, a lodger who lives with a family and provides all his own food is not a member of the family's household but constitutes a separate household and therefore completes a separate householder's schedule. Because an occupied private dwelling is defined as the premises occupied by a household on census night (see above), the number of households and the number of occupied private dwellings is identical and the number of occupied dwellings, as defined for census purposes, may be greater than the known number of structures.

10. *Section of State*—This identifies aggregations of collection districts on a basis which ignores legal boundaries. Sections of State are defined for statistical purposes only.

Five sections of State are used:

(a) Major urban—urban centres with a population of 100,000 and over. Some urban centres cross State boundaries; in such cases, information for separate parts will be published in the respective State publications;

(b) Other urban—urban centres with a population of 1,000 to 99,999;

(c) Bounded rural locality—population clusters of 200 to 999 persons;

(d) Rural—the remainder of the State;

(e) Migratory—persons enumerated on board vessels in and between Australian ports, or on board long-distance trains, buses or aircraft.

Further information

11. If you would like further information about the statistics available from the 1981 Census, please contact your local ABS office (see Appendix B). An information paper: *Census 81—Data Release Plans* (2142.0) and its *Addendum*, which are available from any office of the ABS, describe the plans for data and supporting information planned for release from the 1981 Census. The *Catalogue of 1981 Census Tables* (2139.0) is also available.

12. Other information from the census is available at various levels of geographic detail. Information at other levels may be made available on request.

(a) In processing for 1981 a number of employed persons have been allocated to occupation code 100 (which forms part of the minor occupation group, Administrative and executive officials, government, n.e.c.) who in 1976 would have been allocated to code 154 (which forms part of the minor occupation group, Other clerical workers). Caution should therefore be used in interpreting the figures at minor and major occupation group level shown in this publication. (b) This is a combination of the 1976 Census classifications: Wool classers; Hunters and trappers. (c) Includes the 1976 Census classifications of: Deck and engineer officers, ship; Deck and engine hands, ship; Aircraft pilots, navigators, flight engineers; Guards and conductors, rail. (d) This is a combination of the 1976 Census classifications: Furnacemen, rollers, drawers, moulders and related metal making and treating workers; Chemical, sugar and paper workers etc.; Tobacco preparers and tobacco product workers. (e) Includes the 1976 Census classification, Undertakers and crematorium workers.

AUSTRALIAN BUREAU OF STATISTICS

Census of Population and Housing Australia 30 June 1981

Householder's Schedule

Dear Householder,

Tuesday, 30 June 1981, is Census Day.

The census is an important statistical collection, which not only counts the number of people throughout Australia, but also measures such things as internal migration, occupation and industry of those in the labour force, and housing conditions. The enclosed pamphlet gives you a more detailed description of the value of the data collected in the census and the uses to which they will be put.

The census is the only way of getting a complete picture of all persons in Australia at the one time.

The Australian Bureau of Statistics is required by law to take a complete census of Australia every five years. The Act under which the census is taken is called the *Census and Statistics Act* 1905. This Act makes it compulsory for you to provide the information requested.

For your protection the same Act guarantees that your answers will be treated in confidence. All staff engaged on the census are required by law to protect the confidentiality of information collected. It would be an offence for any information relating to an identifiable person or household to be released to any other Government Department or agency, or indeed to anyone outside the Statistics Bureau.

If you have difficulties filling out this form, please ask the Collector for help or telephone.....

Your co-operation in carefully completing the form will contribute greatly to the success of the census.

HOW TO FILL IN THIS SCHEDULE

What is a Household?

Persons living and eating together as a domestic unit are a household. A person living alone is also a household. If there is more than one household in this dwelling, obtain extra Schedules from the Collector AND FILL IN A SEPARATE SCHEDULE FOR EACH HOUSEHOLD.

Who to Include

List in the top row all persons (including visitors) who spent the night of Tuesday, 30 June 1981, in this household or returned on Wednesday, 1 July 1981, without having been counted elsewhere. USE ONE COLUMN FOR EACH PERSON. If there are more than 8 persons in this household, obtain extra Forms from the Collector.

On pages 1–5 give details of *all* persons who spent the night of Tuesday, 30 June 1981, in this household.

Complete particulars of this dwelling on page 5.

When Answering Questions

Please use ink or ball point pen.

Read the questions and instructions carefully; give your answer and then go to the next question.

Most answers can be given simply by placing a tick in an appropriate box.

If you do not know the exact answer, give the best estimate you can.
