INTERVIEW REGULATIONS/PROCEDURES

All 2021 Home Hardware Canadian Mixed Doubles Curling Championship, presented by Nature's Bounty Vitamins, media interviews will be virtual.

Accredited media will receive a Zoom link that will be valid for the entirety of the event. Players will be brought to the mixed zone upon completion of their games and available for five-minute media scrums. It is the responsibility of the accredited media member to be on the Zoom call upon completion of the game as players will not be available after leaving the mixed zone unless pre-arranged in advance. All media scrums will be uploaded to [Curling Canada's YouTube page](#) as soon as possible after each draw.

Media scrums will only be conducted during the three middle draws of the day (11:30 a.m., 2:30 p.m., 5:30 p.m. MST) with winning teams during the round robin. For teams/players not available during those times, please contact Curling Canada at media@curling.ca and staff will do its best to arrange a phone interview.

Beginning on Wednesday, March 24 media scrums will be conducted after all draws during the playoffs.

DRAW STATISTICS

Live scores and stats are updated in real-time and can be viewed online at the [Curling Canada scoreboard page](#).

TV non-rights holders may use as much post-game media scrum footage as they wish.

No live hits, stand-ups or recording of non-broadcast games will be allowed to occur inside WinSport Arena at Canada Olympic Park.

FACT SHEET

OFFICIAL NAME: 2021 Home Hardware Canadian Mixed Doubles Curling Championship, presented by Nature's Bounty Vitamins

DATE/SITE: March 18-25, 2021 - WinSport Arena at Canada Olympic Park

SEATING CAPACITY: 2,500 (not applicable)

FORMAT: Thirty-five teams will compete in five pools of seven. The 35 teams were selected by the following criteria:

- 14 Member Associations (provinces and territories)
- 14 teams from the Canadian Mixed Doubles Rankings [CMDR] based on results from March 15, 2019 and March 15, 2020 (teams must have played at least two mixed doubles events during the season)
- Seven teams unable to compete this season due to COVID-19 but had committed to playing mixed doubles together. (Rankings are based on each player's best three CTRS points events from the 2019/2020 season combined with their partners. All players must be part of Curling Canada's National Team program)

Teams will play six games in their respective pools. The top 12 teams will advance to the playoff bracket with the top four seeds receiving a bye. The remaining playoff games will be: 8v9, 5v12, 7v10 and 6v11. Winners advance to play the top four seeds in the Round of Eight.

Teams that advance through the Round of Eight will officially qualify for the Page playoff, and will play one Page Seeding game where the winners advance to the 1v2 game and the losers play in the 3v4 game.

The winner of the 1v2 game advances directly to the final and the loser plays in the semifinal. The winner of the 3v4 game advances to the semifinal and loser is out. The winner of the semifinal game will advance to the final where the 2021 Canadian mixed doubles champion will be crowned.

INTERNET: Draw results and event information can be obtained at:
<https://www.curling.ca/2021mixeddoubles/>

TELEVISION: TSN, RDS2, ESPN3

WINNERS EARN:

- Opportunity to represent Canada at the 2021 World Mixed Doubles Curling Championship, pending an announcement from the World Curling Federation.

Total purse: \$150,000

1st: \$50,000

2nd: \$30,000

3rd: \$20,000

4th: \$10,000

5th-8th: \$6,500

9th-12th: \$3,500

GAME DURATION: In the round robin, games are scheduled for eight ends with a minimum of six ends played and completed before a team may concede.

**ROUND ROBIN
PRE-GAME PRACTICES:** RED teams (first team on the draw) will begin their six-minute practice 20 minutes prior to the scheduled game time. Immediately following the RED pre-game practice, each player will deliver a stone to the button - one clockwise to the away end and one counter-clockwise to the home end. Both will be measured and combined to determine the team's LSD value.

YELLOW teams will begin their practice immediately following the RED teams draw to the button. After their six-minute practice, each player will deliver a stone to the button - one counter-clockwise to the away end and one clockwise to the home end. Both will be measured and combined to determine the team's LSD value.

Full sweeping is allowed. Each player must throw at least three clockwise and three counterclockwise turns during the round robin.

Teams opposing each other in the game shall use the Last Stone Draw (LSD) process to determine which team has the decision on the placement of the stones for the first end. The team with the lesser combined LSD distance shall have the decision.

For the purpose of event ranking, the two highest individual distances of the twelve draws will be discarded. The remaining total distance from the round robin will be used to rank teams.

GAME TIMING: "Thinking Time" will be used. Each team will receive 24 minutes to complete an eight-end game. Extra ends will be 3 minutes each for each team.

Your clock will run when:

- All stones have come to rest and stones in an out of play position have been moved behind the back line AND
- The sweeper(s) and person who has just delivered have moved to the side of the sheet AND
- The person in charge of the house has relinquished control of the house AND
- The person in charge of the house who is now the "delivering team" has taken control of the house.

A team's game clock stops once the stone has reached the tee line at the delivery end.

TIMEOUTS: Each team is allotted 2 - ninety second time-outs when their team clock will be stopped. Please signify to your Game Umpire and Time Clock Operator that you are calling a time-out.

The Coach may attend the time-out. The team that did not request the time-out may meet with their coach (positioned behind the scoreboard).

Each team will receive 1 - ninety second team time-out for each extra end.

**PLAYOFF
TIE-BREAKING:**

The following criteria will be used to rank teams at the completion of the round robin.

Determining the winners of Pools A through E, ranked 1-5:

- 1) Win-loss record
- 2) If two teams are tied, head-to-head results
- 3) If tie-breaking formula cannot be solved by #2; last stone draw ranking used to break tie

Determining the ranks of #1 through #5 seeds from different pools:

- 1) Win-loss record
- 2) Teams with the same win-loss record; last stone draw ranking used to break tie

Determining the ranks of playoff teams #6 through #12

Determined by the next seven best records, regardless of pool. NOTE: No tiebreaker games

- 1) Win-loss record
- 2) Teams with the same win-loss record; last stone draw ranking used to break tie

**PLAYOFF GAMES,
STONE SELECTION &
LAST STONE ADVANTAGE:**

For all playoff games, excluding the semifinal and final, the team with the better round-robin record will receive choice of stone colour and first end stone placement. The opposing team will have choice of practice time.

For the semifinal game, the loser of the Page 1-2 game will have the choice of stone colour and first end placement.

For the final the winner of the Page 1-2 game will have the choice of stone colour and first end placement.

If the competing teams in the final have the same round-robin record (excluding the semifinal and championship games) a pre-game draw to the button (same process as for round robin games) will determine the first end stone placement choice.

The team with the lower total draw shot distance results (Best 10 of 12) will choose stone colour or practice time.

The opposing team will then have the remaining options.

For all playoff games, (excluding the semifinal and final games) the stones from the assigned sheet will be used.

For the semi-final game, teams will have a choice of stones from all sheets.

For the final, the teams will have choice of stones from all sheets. (Stone handle colour will not be changed)

MIXED DOUBLES RULES

- Scoring is counted as in normal curling.
- Each game will consist of eight (8) ends.
- When each team completes its practice session a single draw to the button will take place to determine who has the 'option'. The holder of the 'option' must then determine whether they intend to have their stationary stone positioned in the house or as the guard. If they choose the stone position in the house, then they will have last stone in the first end.
- Each team throws five (5) stones per end. The player delivering the first stone of each end must also deliver the last stone of the end for their team, while the player throwing the second stone must also deliver the third and fourth stones for their team. This rotation may change from end-to-end and is simply determined by the player who delivers the first stone for their side at the start of each end.
- No stone can be removed from play until after the third stone of each end and any stones it may have displaced have come to rest. If there is a violation, the played stone shall be removed from play and any displaced stones shall be placed back as close as possible to where they originally lay by the non-offending team.
- At the beginning of each end, two stones will be set up by the umpires. Stones can be set up in one of two positions:

Position A: One stone will bisect the centre line in front of the house while the other stone will be positioned at the back of the four-foot, bisecting the centre line and the back edge of the four-foot. The Chief Umpire will notify each team captain prior to the start of the competition of the exact position of the stone on the centre line as it varies according to ice conditions.

Position B: Once per game a team can locate the stones in the Power Play position. The in-house stone of the team with last stone is placed with the back edge of the stone on the tee-line, splitting the 8 foot and 12 foot rings. The guard is re-positioned from the centre line to a direct line between the middle of the in-house stone and the middle of the hack. The in-house stone will be directly behind the guard. The guard position will be at the same distance from the rings as the normal position of the centre guard. The Chief Umpire will notify each team captain prior to the start of the competition of the exact position of the corner guard stone.

- Prior to the start of each end, one team will have the 'option'. The team with the 'option' has its choice of having its stone placed as a guard or having the stone positioned in the house behind the button. If the guard is chosen, the opponent's stone is positioned in the house or vice-versa.
- The team with the stone out front as a guard will deliver first and the team with the stone in the house will deliver second (have last stone in the end). Following the first end, the team that lost the previous end will have the 'option'. If an end is blanked, the team that blanks will forfeit the 'option' for the next end.
- While the team is in the process of delivery, the non-delivering player must be either positioned inside the hog line, with at least one foot on the ice surface at the playing end of the team's sheet, or in a position to sweep at the delivery end of the team's sheet. After delivery, either or both players may sweep their delivered stone and any stones set in motion that belong to their team anywhere in front of the tee line at the playing end. This applies during all of the team's delivered stones, including the LSD. Note: the non-delivering player does not have to hold the broom for the player delivering the stone. They can be ready to sweep.
