

SIX Swiss Exchange message no. 61/2012

Subject	New target date set for the introduction of SWXess Maintenance Release 3 (SMR3)
Category	SWXess Trading Platform
Authorised by	Christoph Landis, Head Operations Adrian Isler, Head Market Operations
Pages	1
Date	07.11.2012

Information 

In [SIX Swiss Exchange Message no. 60/2012](#) SIX Swiss Exchange announced that the productive implementation of SWXess Maintenance Release 3 (SMR3) would be postponed.

The issue that prevented the SMR3 release from going live as planned has been analyzed and is in the process of being solved. However, in order to meet the quality standards we set for our trading services, additional and extensive internal test cycles are required before we can go forward with the migration.

Please be advised that SIX Swiss Exchange has set the new **target date** for the productive implementation of SWXess Maintenance Release 3 (SMR3) to **10 December 2012**.

We are committed to complete the SMR Production migration with minimum risk and have started a consultation process with our Participants to find out whether the new target date is feasible. We will provide confirmation of the SMR3 Production launch on 23 November 2012.

Until the productive implementation of SMR3, participants will still be able to test the functional changes in the Membertest environment

We apologize for the delay and the inconvenience caused. We thank you for your understanding.
