On 14 January 2016, SIX Swiss Exchange published [SIX Swiss Exchange message No. 01/2016](#) to announce the impending index adjustments in conjunction with the regular Index Commission review. This message contains the most important information on the effects of these index basket adjustments.

Following the inclusion of Dufry AG in the SLI[®] Index and the exclusion of Transocean Ltd from the SLI[®], the two securities will be moved to a different trading segment as of 21 March 2016.

Dufry AG will change from the Mid-/Small-Cap Shares segment (market code XSWX) to the Blue Chip Shares segment (market code XVTX). At the same time, Transocean Ltd will migrate from the Blue Chip Shares segment (market code XVTX) to the Mid-/Small-Cap Shares segment (market code XSWX).

Due to the change of trading segment for the aforementioned securities, all outstanding orders will be deleted from the order books. All «good-till-date» orders for these securities will be deleted from the order books on 18 March 2016 (last trading day before the segment change) after close of trading at 5.30pm CET. Orders will automatically be deleted by SIX Swiss Exchange (unless deleted beforehand by the participants) and an execution report confirming the deletion (ordStatus "Cancelled" and text "0: delisted") will be issued to participants through the Standard Trading Interface (STI). Participants are responsible for entering the corresponding orders into the new order books by the start of trading on 21 March 2016 (first trading day after the segment change).
